

Dear Chairman Pai,

As a supporter of a free and open internet, I am disappointed in your leadership on the issue of Net Neutrality. I would hope that it is as obvious to you as it is to millions of Americans like myself that the free internet as we know it cannot exist under the conditions that you propose. I write to you, and the FCC, to express my opposition to Docket No. 17-108. The internet freedoms that we are entitled to cannot exist without the oversight granted under Title II, and as such, I am in support of strong Net Neutrality backed by the Title II oversight of ISPs. I suspect you privately know that your current stance on this issue is harmful to every American, and I would urge you to make the right choice when the time comes to act. This particular era in American history will already fall heavily under the gaze of future generations. It is my hope that you take the path that spares you the judgment that history will hold for your contemporaries.

Sincerely,

Grant D. Workings
